LEANDRA RAMM

*Singer * Dancer * Actress*

LEANDRA RAMM

Singer-Dancer-Actress

Singer Leandra Ramm is best known for her vocal abilities, quoted to be, "the natural opera /pop crossover successor to Katherine Jenkins and Charlotte Church."

Leandra has been featured on *CNN's Anderson Cooper 360*, *The View*, *Good Morning America* and *60 Minutes*—just to name a few. She also has toured Europe and the Caribbean as Lead Singer on the *Celebrity Cruise Lines Solstice Class Ships*. She has performed at Carnegie Hall and The Kennedy Center with a range from opera to musicals to modern music

Leandra came to our attention when she and her sister Courtney modelled Hillary Flowers clothing line at TIMMAG'S Fashion Loves Rock show at Don Hills, NYC. Leandra is also well-known for the way she entered the world. Her parents, David and Adrienne Ramm, went to the Repository for Germinal Choice after realizing they couldn't conceive. Dubbed the Nobel Prize Sperm Bank, Leandra's biological father was handpicked by the repository as part of an experiment to produce a super talented race. Whatever your view is on the subject one cannot help wondering how much talent comes from genealogy and how much comes from our environment—especially after you hear Leandra sing. Her brother Logan and sister Courtney were conceived the same way, but have a different biological father (an Olympic gold medalist.) They have met the donor, a journey Leandra still has yet to complete.

Her debut single Dream Angel is based on Bach's Prelude in C major but easily fits into any music lover's collection. Leandra's acting credits include a role she created, *Silvestra* in the premier of *Mario and the Magician*, the lead role of Annie in *Hell's Kitchen The Musical* at the Hudson Guild Theatre and recently Antonia in *Man of La Mancha* with the Diablo Theater Company. Her resume is too lengthy to list and, "Oh...did we mention Leandra is also a talented dancer."

Leandra, which do you enjoy the most?

Singing in a concert setting or a Musical / Opera performance?

I love performing! If I'm singing for an audience that appreciates my performance, I don't mind what type of performance it is! I enjoy performing in both operas/musicals as well as solo concerts. I like performing in operas and musicals because I am portraying a character and telling a story. The cast invites the audience to listen to a story for a few hours through a script and music. I get to act as a character and sing songs through their point of view. I enjoy performing in a concert format because I can take the stage and perform my own show. I can sing my favorite songs and talk about my journey so far as an artist and person.

I see both your brother and sister were conceived of the Genius pool, are they both similar in their traits to their respective donors?

My sister and brother (Courtney and Logan) were both conceived from the same donor, an Olympic gold medalist. Both Courtney and Logan are very athletic; Courtney is a dancer and also is a teacher of Yoga and Pilates. My donor who is a scientist, I have yet to meet. Although I appreciate science and like studying it as a hobby, my love is in the arts!

Do you enjoy modeling and why?

I enjoy modeling because it's a way to showcase a designer's clothes. I can wear fabulous clothes and strike different poses. Fashion shoots can be in amazing places and that can be so fun! Modeling is another form of artistic expression and I love it!

What future projects are you involved in?

My debut single, *Dream Angel*, was released this past summer and my full album, *Invitation to a Voyage*, will be released in the coming months! This CD has over 20 tracks of me singing popular Broadway tunes and operatic favorites. I am also releasing my second single, *L'amour*, which I am especially proud of. It's an original song that I wrote which is based on the famous *Habanera* from the opera *Carmen* and the song has a really hip track! These new CDs will be available to purchase on [Itunes](#), [Amazon](#) and many other online stores.
